

# MCC DIAGNOSTIC TESTS

We will O.E.M. all Pregnancy, LH Ovulation, Drugs of Abuse, H. Pylory, PSA, MONO, and TSH.

The Pregnancy and LH Tests are offered in the following formats: Midstream, Cassette, and 5mm strip.

## **Instant hCG Pregnancy Test**

An instant, one step immunoassay for the qualitative detection of human chorionic gonadotropin (hCG) in urine.

### **Procedure:**

**Cassette:** Collect sample, add four drops of urine to the sample well (S). Read within 3 minutes.

**Dipstick:** Collect urine sample in specimen cup. Place dipstick in urine cup holder. Read result within 3 minutes.

**Midstream:** Urinate directly onto absorbent tip. Read results within 3 minutes.

The Drugs of Abuse Tests are offered in individual strips, cassettes and multiple dip and pipette formats.

*The PSA, H. Pylori, TSH, and MONO are all Whole Blood One Step Cassette Tests.*
